Installation Instructions

50210

1979-86 Mustang Switch Panel

The 50210 switch panel is designed to be mounted in the radio/stereo location using the screws provided.

The large red wire, that has been spliced several times, is included in the kit to provide power to all the switches. The spliced black wire is included to provide a ground to all the switches.

Individual wires with terminals on one end are the wires to be routed from the switch to the device being controlled. The terminal end is for the switch and once the wire has been routed, the extra length may be cut off and then terminated. This kit has three extra switches and two extra wires, which may be needed in your particular application.

The following chart is a guideline to what color wire is normally used for a particular circuit.

Red; Battery power
Black; Chassis ground
Purple; Starter solenoid
Pink; Ignition coil
White; Accessory

Orange; Accessory
Yellow/White; Fuel pump
Green; Fuel pump 2
Blue; Water pump
Gray/White; Electric fan relay

NOTE: The diode is only needed if you want to send power to both output wires by pushing only one side of the switch.

MOMENTARY ON SWITCH

ON-OFF SWITCH

ON-OFF-ON SWITCH

DIODE INSTALLATION: With diode stripe on top (as shown) it will send power out the bottom and top output wires when the top of the switch is pushed, but it will only send power out the top output wire when the bottom side of the switch is pushed. It will be opposite if the diode is reversed.

Painless Performance Limited Warranty and Return Policy

Chassis harnesses and fuel injection harnesses are covered under a lifetime warranty.

All other products manufactured and/or sold by Painless Performance are warranted to the original purchaser to be free from defects in material and workmanship under normal use. Painless Performance will repair or replace defective products without charge during the first 12 months from the purchase date. No products will be considered for warranty without a copy of the purchase receipt showing the sellers name, address and date of purchase. You must return the product to the dealer you purchased it from to initiate warranty procedures.
